ACCOUNT AND SIGN-IN

Linework has no passwords: you sign in with a link sent to your email, or with Google or Apple.

CREATE AN ACCOUNT

- 1 Open the app and tap **JOIN US**.
- 2 Enter your email and tick that you accept the **Terms of Service** and the **Privacy Policy** (you can read both in the app).
- 3 Tap **SEND MAGIC LINK**, or choose **Google** or **Apple** (Apple on iPhone only).
- 4 Open the email **on the same phone** and tap the link: the app opens and you are in.

If a friend invited you, open their invite link first (`linework.app/join?ref=...`): the invite is linked to your new account automatically.

SIGN IN

- 1 Tap **LOG IN**, enter your email and tap **SEND MAGIC LINK**, or continue with Google or Apple.
 - 2 The **CHECK YOUR INBOX** screen shows where the link was sent. Open it on this phone.
- **No email?** Wait a minute and check the Spam and Promotions folders, then tap **RESEND** when the countdown ends.
 - Only the **latest** link works. An expired link: request a new one.
 - Wrong address: tap **USE A DIFFERENT EMAIL**.
 - If you had deactivated your account, signing in with Google or Apple asks whether to **reactivate** it.

COMPLETE YOUR PROFILE

The first time, before using the app:

- 1 **TAP TO ADD PHOTO:** a real profile photo is required by the community standards.
- 2 **FULL NAME:** your real name.
- 3 **USERNAME:** your @name, used to find you, mention you and send you money.
- 4 Tap **CONTINUE**.

If your account still has an automatic username, you can browse but not post, comment, like, follow or write messages: the app asks you to **Choose a username** first.

LOCK THE APP (OPTIONAL)

After your first sign-in the app offers **Face ID / Touch ID** and a **4-digit PIN** (entered twice). With a lock set, the app asks for it every time it opens; the same lock protects **locked chats** and confirms some payments. If you forget the PIN, tap **Forgot my PIN?**.

QUICK TOUR

On first launch a short tutorial introduces Spiral, Bloop and the wallet. Your session lasts until you log out; if it expires you see **Session expired** and simply sign in again.

LOG OUT OR DELETE YOUR ACCOUNT

- **Log out:** Profile → ⚙ Menu → **Logout**, then confirm.
- **Delete account:** Profile → ⚙ Menu → bottom of the page → **Delete account** → **Yes**.

Deleting the account removes your profile, posts and chats, and any balance left in your wallet is lost. Spend or send your balance first.
